## The Right to Bear Arms

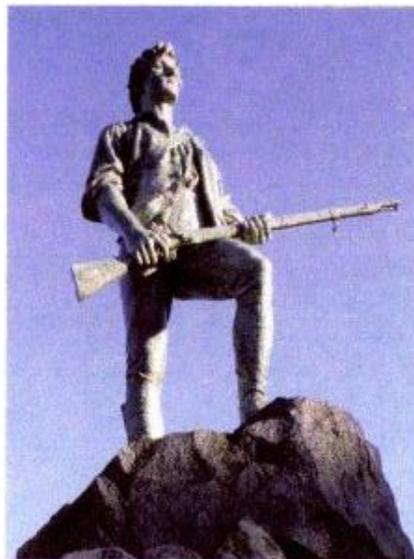

### The 2nd Amendment

Political parties are meant to offer alternative philosophies, priorities, agendas, and strategies to achieve the purpose of government as outlined in the Constitution.

Both major political parties have become more similar than different and neither follow the Constitution as laid out by our Founding Fathers. Both have lost the ability to govern with a clear and consistent moral compass, and thus our country has not been well served.

Therefore, the Constitution Party was formed to provide the people with a real political avenue to make their vote count, to provide a political expression of their beliefs and values in elections and in implementing public policy.
